SUMMARY

Results-driven Computer Engineering undergraduate (graduating June 2026) with hands-on experience in AI/ML, Deep Learning, MLOps, and cloud-native DevOps. Proven record of delivering LLM-powered automation, Kubernetes orchestration, and CI/CD pipeline improvements through internships at PTC and ACTDBI. Strong communicator and collaborative team player with demonstrated leadership in hackathons and cross-functional engineering teams. Seeking full-time roles in AI/ML Engineering, DevOps, or Software Engineering.

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, SQL, Bash
- **AI / ML & Deep Learning:** Machine Learning, Deep Learning, Neural Networks, Large Language Models (LLMs), Prompt Engineering, NLP, AI Agent Development, OpenCV
- **Cloud & DevOps:** AWS, Azure, Docker, Kubernetes, Helm, Jenkins, GitHub Actions, CI/CD Pipelines
- **Backend Development:** Flask, REST APIs
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, Linux, Jinja2, Windchill PLM
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Agile/Scrum, Test Automation
- **Leadership & Soft Skills:** Team Leadership, Cross-functional Collaboration, Problem Solving, Technical Communication, Stakeholder Reporting, Adaptability, Multilingual (English, Hindi, Marathi, German A2)

EXPERIENCE

AI/ML & DevOps Intern

PTC Windchill PLM

Jul 2025 – Present

Pune, India

- Automated Kubernetes deployment workflows using Python and Jinja2 templates, reducing manual configuration effort and improving deployment consistency across environments.
- Designed and maintained Jenkins CI/CD pipelines covering build, test, and release stages, accelerating delivery cycles and ensuring repeatable automation.
- Integrated automated code coverage validation into CI/CD workflows, improving regression testing efficiency and release readiness assessment.
- Engineered AI/ML workflows for Salt Master error classification using Large Language Models (LLMs), reducing mean time to diagnose infrastructure failures.
- Developed automated report-generation solutions that eliminated manual analysis tasks and improved operational visibility for platform teams.
- Built AI agents to automate BCO-related and enterprise operational workflows, reducing toil and increasing process reliability.
- Managed containerized applications using Docker, Helm, and Kubernetes; collaborated cross-functionally with development, QA, and platform teams to resolve deployment and infrastructure issues.

Data Analyst Intern

ACTDBI

Oct 2024 – Jan 2025

Pune, India

- Analyzed business datasets using Python and SQL to surface actionable insights supporting data-driven decision-making.
- Automated recurring reporting workflows using Python scripts, significantly reducing manual effort and turnaround time.
- Performed end-to-end data cleaning, transformation, and visualization to improve data quality and stakeholder reporting.

PROJECTS

Enterprise Kubernetes Deployment Automation Platform

2025

- Built a templated Kubernetes deployment system using Helm charts and Jinja2, standardizing multi-environment deployments and reducing human error in release workflows.
- Orchestrated containerized services with Docker and Kubernetes, enabling scalable and reproducible infrastructure provisioning.

CI/CD Test Coverage Validation Framework

2025

- Engineered a Jenkins-based pipeline for code coverage analysis, mapping test cases to source modules and generating

- release-readiness validation reports.
- Provided automated quality gates to prevent under-tested code from reaching production, reducing regression overhead.

AI-Powered Lead Generation Chatbot

2024

- Developed a conversational chatbot using Flask, MongoDB, and NLP-based workflows to automate lead collection, validation, and session management.
- Enabled structured customer-data capture through a conversational interface, reducing manual CRM data-entry effort.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering

Pimpri Chinchwad College of Engineering (PCCOE), Pune

Aug 2022 – Jun 2026

CGPA: **8.45 / 10**

Higher Secondary Certificate (HSC)

Maharashtra State Board

2022

Percentage: **92.0%**

Secondary School Certificate (SSC)

Central Board of Secondary Education (CBSE)

2020

Percentage: **93.4%**

ACHIEVEMENTS & LEADERSHIP

- **Winner**, Open Innovate 2024 Hackathon, PCCOE — led team ideation, technical execution, and final presentation to jury panel.
- Qualified for **Smart India Hackathon (SIH) Internal Round 2026** — shortlisted among top proposals institute-wide.
- Completed **IBM AICTE Internship** in Artificial Intelligence and Data Science.
- Certified in **German Language (A2 Level)** — demonstrates commitment to continuous learning and cross-cultural communication.
- Maintained strong academic consistency: 93.4% (CBSE) → 92.0% (HSC) → 8.45 CGPA (B.Tech).

CERTIFICATIONS

- IBM – Machine Learning for Data Science Projects
- IBM – Getting Started with Enterprise-grade AI
- Microsoft Certified: Security, Compliance and Identity Fundamentals (SC-900)
- AWS Solutions Architecture Job Simulation (Forage)
- JPMorgan Chase & Co. Software Engineering Job Simulation (Forage)
- Professional Certificate in DevOps
- Bash Scripting and Shell Programming (Linux Command Line)
- Python Full Course: Beginner to Advanced (GeeksforGeeks)
- Introduction to Python OpenCV
